Requests for advice will be returned by telephone (in most cases) or fax **between 9am and 5pm**. We strive to respond to all consults **within 1-2 business days**.

This consultation service is intended to provide information, advice and guidance regarding feline and canine medical issues and conditions. The information provided by the consultants is an educational service only. Regarding individual patients, the consultation service does not replace the primary care veterinarian's independent judgment regarding the appropriateness of a diagnosis and the risks and benefits of a procedure or treatment. All health care decisions are the responsibility of the primary care veterinarian.
